# THINK OUT OF THE BOX

## eseia International Summer School

Novel Development in Biorefineries

18 - 29 July 2016 Lisbon, Portugal The National Laboratory of Energy and Geology - LNEG

Think out of the box when developing your career on any topics relating to biorefinery, biomass and bioresource chain management with eseia experts.

You will receive insights from top scientists and practitioners in various angles that will help you in your professional growth.

Enhance your own project ideas by using cutting edge tools, interactive sessions, expert consultations and professional visits.

Meet people with similar interests and start networking. Reach beyond your limits this year at the eseia International Summer School 2016!

# **Key Information**

#### **School Content**

The eseia Courses on Biorefineries are oriented in four angles - policy, socioeconomic, design and technology. Lectures will be given by eseia Higher Education Institutions and Research organisations members, followed by evening sunset talks with the eseia business network. Special focus is given on hands-on experience conferred through case studies, experimental lab work, group work and discussions.

#### **Professional visits**

Envisaged visits: Navigator Company, S.A.: Pulp and paper plant. AMARSUL: Municipal solid waste processing plant. Algafuel, S.A. - Bioengineering company for industrial production of microalgae.

#### Social life in Lisbon

Lisbon is for most the 'coolest' city of Portugal and one of the most interesting places in Europe. Good memories are guaranteed either being a free explorer or joining our cultural programme!

### **Academic recognition**

The equivalent of 4 ECTS, 75 hours sessions, project preparation and follow-up.

#### Fee

600 EUR, covering the lectures, board and lodging at the Catholic University Residency. Costs and organization of arrival and departure is in the responsibility of the participants. Special prices for students who not require lodging are available.

### **Application procedure**

Applicants should prepare a short motivation letter, CV and Abstract of their work/recent results and/or research interest, related to this year's summer school topic.

**Application Deadline:** 30 June 2016
